Mike,

The RPM just approved the PDF of the Q&A document. This has not been through product review but can I still upload it into SEMS for publication on the web?

I would suggest *a link* to. Actually, many of the citizens who are looking for this information are very savvy and have some need for it, such as the GBF, I have learned.

Donn – can you reply to Joan? How about a link to this? Also, there are FAQs from the old web site that we should include as well.

Thanks,

Gary Miller

Gary,

For your Review. I believe the current format of the Q&A is too hard to read online. What do you think?

Joan,

The attached file has answers to questions we received from the community. I would appreciate it if you could put this on the EPA Site Profile for the San Jacinto River Waste Pits site.

I would also like to discuss with you doing some other work on the San Jacinto Site Profile, so let me know if you're in today & I will call to discuss.

Thanks,

Gary Miller
